tabtour®

Digital rallies with awards

Discover and experience the city of your choice and its surroundings from a completely different perspective with our award-winning *tabtour®* app (German Tourism Award). In small groups, you move around different locations and solve interactive tasks, virtual puzzles and challenging team missions. Strategy, knowledge and healthy mobility will lead your teams to their goal.

Special stories and formats will pick up on and reinforce your training content or company-specific topics. We can also customise and brand the features and app design. With the special Global *tabtour®* version, you can even compete simultaneously with teams in different cities around the world. Our *tabtour®* is also available remotely. With a digital rally and its unique experiences, you always strengthen the WE feeling of your entire team.

The choice is yours!

- *tabtour®* Sightseeing
- *tabtour®* Teambuilding
- Superhero-*tabtour®*
- Criminal case rally
- Tabcrime Academy

TARA

Save your city from chaos

In a world where many cities are struggling with pollution, traffic jams and cybercrime, there is a new artificial intelligence called TARA that has the potential to improve life in cities in a sustainable way. TARA has developed efficient transport systems, reduced pollution and increased public safety, resulting in a harmonious and thriving community.

However, there has recently been a split-off entity called XARA, which has emerged from TARA and wants to plunge every city into chaos. XARA has plans of its own and is fuelled by an unquenchable thirst for control and destruction. It begins to undo the achievements of TARA and plunge every city into darkness. It will take brave, clever and dedicated teams to help TARA overcome this crisis and stop XARA before it's too late. In this gripping outdoor escape game, teams must solve exciting and interactive puzzles to eliminate the chaos in various themed areas in order to counteract XARA's evil intentions and restore balance.

[Your TARA event could look like this!](#)

(Mega)Raft Building

Gain momentum as a team

Who hasn't wished they could build a raft like Tom Sawyer and Huckleberry Finn and go on a great journey? With *teamgeist* you have found the expert for raft building. As a multiple Guinness World Record organiser for the largest raft, we offer the highest level of quality and experience for your event.

After dividing up the group and learning about knots, it's time to get started. Our guides will support your teams as they build a stable and buoyant raft from floats, tree trunks, boards and ropes. Team spirit is needed, and fun is guaranteed. Building, creating a rafts-motto or designing a team flag - there's something for everyone. The raft is then baptised during a test trip on the water. If you wish, you can organise a race, set sail together or build a large mega team raft from all the small rafts and hoist your company flag on it.

The choice is yours!

- Team raft with creative task, raft inauguration and race
- Mega raft building for 100 people or more (without creative task)
- Bridge building with creative task
- Pirate raft building
- Raft building world record (without creative task)

Set the next raft building world record with us!

Perfect for large groups: With guaranteed WOW effect

With our spectacular activities, we promote communication and interaction within the team and, as a side effect, provide effective team building for your group. The visualisation of your topics becomes tangible and can thus be anchored in the long term.

Impulse reaction XXL

In a dynamic atmosphere, your teams create highly complex individual reactions from a wide variety of materials, which finally merge into a chain of impulses. The aim of the entire group of participants is to create a functional and, if possible, continuous movement with an effective interplay of the individual team reactions. This will captivate everyone and bring out unimagined creativity.

What do you think, can your teams create an uninterrupted reaction that then triggers the big bang?

Soapbox Grand Prix

Let's go racing: At this event, you design soapbox kits according to your own wishes and compete as a team in the big Soapbox Grand Prix. Equipped with the necessary materials and tools, there is something for everyone to design, build, screw and customise. With small additional team tasks, the racing teams can earn great tuning parts for their very own team cat car. The crowning moment is the ultimate test.

Which team will come out on top in the race and who has the best design?

Team Net

More network is not possible! With ropes and useful knots, you can weave a strong net together. Strong metaphors such as "networking between people" or a well "functioning net" can be communicated in a lively way. After learning about knots and receiving the task, each team knots its own net. In a grand finale, the individual team nets are put together piece by piece and, as a highlight, subjected to a "stress test". What sounds simple requires a lot of communication and coordination.

Summer Party

Great activities and lots of fun

It's all about having fun and enjoying small activities together as a team in a relaxed and informal atmosphere. It's not primarily about collecting the most points, every party guest can take part and will certainly be carried away by a little fun competition.

Our guides will be on site with your guests, who in our experience will be motivated to take on exciting challenges such as flip-flop shooting, beach golf or crossing the Amazon. And to turn your summer party into a party with a "Bacardi feeling", we have our coconut boules, limbo or a "Summer Special" parcours of the senses on the menu. This will automatically put you in a good mood and create an upbeat atmosphere.

The choice is yours!

Flip-flop long distance shooting, air challenge, limbo, beach golf
Coconut boules, "Summer Special" parcours of the senses
Beer mug lifting, Kubb, blowpipe shooting, cross boules,
Crossing the Amazon

Company trips & celebrations: Even more ideas for summer

Celebrate summer where it's at its best – outdoors in nature, at an idyllic location in the countryside or right by the water. We accompany your event everywhere with the right event programme and great selected locations.

Tabchallenge

It is one of the best-of team events because it offers maximum flexibility with a wide variety of modules and methods. Adapted to your target group, your wishes and the event location, we select the most suitable modules and tasks from over 100 tasks or develop new ones on request. Equipped with iPads and other equipment (depending on the event design), the teams embark on a digital scavenger hunt directly at the event location. The groups tackle team tasks and puzzles, even across teams, for a common and unifying final challenge.

Vineyard Challenge

Our outdoor rendezvous will inspire your teams with plenty of excitement! Our very specific team tasks such as the winemaker quiz, wine bottling, wine labelling or the winemaker air challenge will ensure this. Skill, creativity, knowledge and a large portion of team spirit will help your teams to secure important team points in this challenge and thus conquer the winemaker's crown. And, of course, there's also plenty of enjoyment when it comes to smelling or tasting different aromas or types of wine and estimating the quantity.

Samba-Teamdrumming

Getting into a rhythm together and experiencing the strength of the group is a particularly impressive experience. The samba rhythms create a synergetic groove that even people with no musical experience can enjoy.

But why samba?

Samba involves 5 to 6 different percussion instruments and drums. Each of these instruments has its own rhythmic pattern. The typical lively samba groove is created by overlapping the rhythms. Perfect for your celebration - good vibes and summer feeling!

Teamchallenge - For more "WE!"

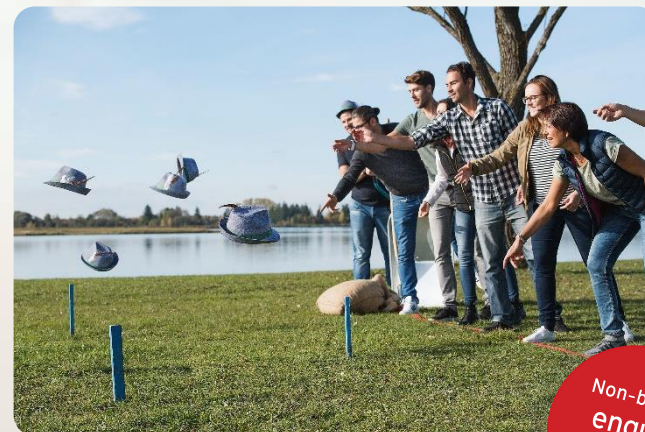

Customised team building

Enhance your company event with a challenge and select the right modules with us. Depending on the theme and objective of your team event, we can put together the right team-building activities from over 100 varied modules.

In consultation with you, we can combine 4 to 6 team tasks in a time frame of 2 to 2.5 hours, depending on your choice. The modules are organised as a circuit of stations. Optionally, the stations can also be located with the help of GPS points. We are happy to recommend a combination of indoor and outdoor, as our experience has shown that the familiar is open to change, especially outdoors. We give your teams challenges!

The choice is yours!

- Classic team challenge according to your objectives
- Upcycling Car Rally
- Medieval Challenge
- Highland Games
- Bavarian Challenge / Oktoberfest Challenge
- Theme Challenge

Mission Possible

Experience team spirit and adventure

As future agents, you will have to prove what you have learnt in small teams. Your skills in the areas of communication, dexterity, overcoming a sensor floor, bomb defusing, laser traversing, abseiling, following hot leads, combining clues, recruiting informants or searching for evidence will be put to the test by none other than Ethan Hunt.

Various spy tasks have been prepared for this, which must be completed. At least 1,200 points are required to pass. As a team, show that you have mastered the modern methods of information gathering, keep calm during breakneck chases, turn exceptional situations into routines and have an alert mind in a steely team of agents!

The choice is yours!

- Target training
- Connect & network
- Training all senses
- Dexterity exercises
- Communication training

Eco-Events & CSR: Ecologically and socially sustainable

The topic of sustainability is very important to us, which is why *teamgeist* also offers a wide range of activities that focus on social and ecological aspects of our lives. Awaken the commitment of your employees to become active with your company for a good cause.

Upcycling team art

After a short briefing, it's time to get to work on the treasures made of plastic and other materials!

The first step is to brainstorm together. What fits together and how? Perhaps there is something in your own bag that has been unused for a long time and can now be put to good use! The team discusses and sketches. Then they create a kind of collage (e.g. on canvas). Background music can serve as inspiration. If desired, we can follow up with an exhibition and/or a vote and award a prize for the best team art.

Insect hotel

Do you want to create something as a team and do a good deed at the same time? Then build an insect hotel together. Incidentally, this can also be a sensible solution for a charity event! With this team-building task, you will be both an environmentalist and a master builder. Open your own insect hotel and promote the preservation of insect diversity. As a small additional module, we offer the option of building an extra earwig hotel, as earwigs are pollen thieves and have no place in a hotel for wild bees and the like!

Charity - Cajon building

Nowadays, mobile phones and MP3 players are our instruments. But there is another way! Build cajones with us! These are wooden boxes that produce a decent thump and can be played together. From building to the first rhythmic sounds to composing the "rhythm message", we offer you great moments. And best of all: your cajones will put a smile on the faces of the children, young people, women and men at the donated centre. Experience for yourself how you can create an incredible groove with just a few playing techniques.

Smart Future City

The future begins now

Start with us into the future and build the prototype of the city of tomorrow, consisting of X city districts. The technologies should be networked in such a way that the quality of life of all living beings is improved (Project 1)! In addition, the theme world assigned to the team must be symbolised and at least two transitions to the neighbouring teams must be created (project 2)! Tackle the projects together, use your creativity where it is needed and make yourself and your company proud with your results. Countless materials made from upcycling, dominoes, Lego and KAPLA® bricks are available for realisation.

How do you achieve this?

- Read the tasks carefully and in addition to the individual goal (building a neighbourhood and its themed world), always keep the overall goal in mind.
- Coordinate well both within your team and with the neighbouring teams in order to successfully realise the smart future city.
- The Smart Future City should be ready by a specified time. This is followed by the presentation.

Creative events: Realising visions together

Our vision is to promote communication, network ideas and jointly achieve impressive results that the entire group of participants can get behind. The *teamgeist* creative events bring your employees' great and inspiring ideas to life or make new corporate values tangible and tangible.

iPad Short Film Festival

Film and action.

Work on your topics with creative ease as part of a small film festival. Your topics and ideas take centre stage here. Using various props and iPads as cameras, the teams create exciting short films or adverts. After a short briefing and receiving all the equipment, the teams start their own short film production. They record different "takes" and edit them using the iMovie programme. They cut the films, add music and much more.

Tape Art / Team Art

The art of adhesive tape: tape art is an alternative to graffiti art, because instead of being sprayed, it is stuck on. Small teams get to work. Each group gives itself a name, plans its work of art and then gets busy with the coloured adhesive tape and gets creative. Depending on the motto and specifications, the individual pieces of tape art can also create a large overall picture. Alternatively, a team painting can also be created on canvas using brushes and paint. Optionally, a design competition can also serve as the finale.

Dance-Perform-Sing-Create

Stand on stage as stars and sing, perform or dance in an ensemble. Inspired by famous operas, musicals, a wide variety of film genres (such as adventure, action, fantasy, horror, western) or musical styles (such as blues, folk, rock'n roll, house, reggae, pop, funk), your show teams create a performance and bring it to the stage. Each theme is supervised by a coach who is responsible for 2 teams. Your staff will get to know each other from a completely different angle and have lots of fun together.

Fun and competition: Entertainment for in between

Ideal for loosening up a conference, as a competition at a summer party or as a small challenge during team building. With our mobile team experiences, you will quickly regain the motivation and focus of the entire team. On your marks – get set – go!

Air challenge

Concentration, finesse and teamwork are the order of the day in our team activities such as rubber slinging, slingshot and blowpipe shooting or archery. Our 3-part game presents your teams with very different challenges. For example, the aim is to hit something with a 3-metre rubber sling and balls or to blow arrows into the bull's eye with the help of a blowpipe or to accurately estimate the curved trajectory of the ammunition of a slingshot in order to hit the target.

Fun is guaranteed here!

Crossgolf

Whether back to nature or across town - with us you will experience the most original form of golf! After a short briefing from our guides and equipped with professional equipment, your event guests will have to adapt to the local conditions when playing golf. If the ball lands in the forest or bush, creative ideas have to be found. The best route can only be found with strategy and the help of everyone in the team. Great fun for everyone and a great change from everyday working life. (also available as indoor hotel and conference golf)

Tab-Action-Quiz

Simple quizzes are a thing of the past! After a briefing on the quiz app, the individual teams start with the first round of questions. The special thing is that each quiz round is followed by an action round. Equipped with lots of materials, our guides and a quizmaster lead your teams through the event. It goes through all areas of knowledge. Your teams will answer a wide variety of questions, tackle tricky team tasks and play fun games. Which team will get the highest score? Optionally, we can integrate company-specific questions and your corporate design.

Training vs. Event: Your mid-year highlight

Are you looking for interactive training based on the latest scientific findings? We combine training with experience and score points with your staff! At the same time, team characteristics are promoted in a playful way and the WE feeling is strengthened. Here are our TOP sellers of the training incentive.

KAPLA® and marble run

Build a KAPLA® world with an integrated marble run as a team. Communication, teamwork, strategy, ingenuity and planning are required when the wooden tiles are turned into architectural masterpieces up to 3 metres high. Almost any indoor location can be transformed into the largest KAPLA® construction site in the world. Fantastic, three-dimensional sculpture parks are created in line with your training themes. The result is always magnificent - magical, diverse and unique in its originality.

Your team commercial

After a short briefing and receiving the film bags, director's books, iPads and props, the teams start their own advertising film production. Each individual feels the power of the creative process and is part of the whole! The teams have to shoot one or more short films on a given topic. The filming locations can be freely chosen or adapted to the theme. What are your topics? What should be anchored, edited or staged in the minds of your workforce?

Theme rally outdoor/indoor

Equipped with a map and compass or with GPS devices and special road books, your teams go in search of coordinates. You will discover special places and master unusual team challenges, such as our special "catapult building", crossing a "river" or building a "bridge" over it. We can organise the tasks for your groups anywhere and in line with your themes for the start of the year. An exciting tour full of co-operation, WE-feeling and fun awaits the participants.

In our fast-moving and complex working world, newly formed teams must work together effectively and efficiently in the shortest possible time in order to realise challenging projects together. The most important basis for this is a functioning team. We can help you with this, both analogue and digital!

How do I affect my environment and how can I best support my team with my skills? With a "persolog® Quick-Check Behaviour", participants learn about various behavioural tendencies and their effects. They learn to understand themselves and others better. With our trainer, everyone practises how to deal more effectively with themselves and others. In this way, they acquire valuable knowledge about how to work more efficiently and quickly, how to treat others with respect and how to create a strong sense of WE.

Values create identity. Corporate values provide orientation for our day-to-day actions and dealings with colleagues and business contacts alike. They have a decisive influence on daily work, form the basis of teamwork, increase efficiency, ensure cohesion and regulate our behaviour. Different working time models, new framework conditions and environmental changes increasingly require a "rethink" of corporate values. We have the right workshops for you and your team.

A process with many tasks! Positive personnel experiences leave the best fingerprint for your company. We support you in the important part of successful integration. There are many HR tasks to be mastered. It is often not so easy to keep an overview, which is where a checklist for your new staff can help, for example. We have lots of tricks and tips, because successful onboarding is the best motivation for staff and the company for the new collaboration.
