Summer-Party-Challenge

Summer-Party-Challenge

Great team activities and lots of fun!

Everything revolves around being happy and joyful together with your colleagues during small activities in a relaxed atmosphere. Here it's not primarily about scoring the most points, everyone can take part and will surely be taken along by a small contemplative competition. With our guides we are very close to your guests, who in our experience like to be motivated for such exciting challenges as flip-flop tossing, beach golf, course of the senses "summer special", coconut boule, of course limbo or even an Amazon crossing.

Many interesting and exciting things will heat up the atmosphere and turn your company summer party into an eventful day for your staff.

Raft Building

Pick up the pace with your team!

Have you ever dreamed of Tom Sawyer and Huckleberry Finn's adventures? Your team's task is to construct a floatable raft from various materials such as ropes planks, logs and tubes. Team spirit is essential and everyone is involved to contribute to having fun. After a small introduction on knotting techniques there are no limits to the team creativity. Our team guides will provide tips and supervise the entire undertaking. In the end, the raft will be christened for the ensuing test ride on the lake and your company's banner hoisted. Upon request you can combine many small rafts to form one mega team raft, race other teams or set sail together.

Your workshop topics can be integrated and implemented in this innovative Teamgeist Raft Building.

Team Challenge

Put the teams' mind, heart and hands to success.

We will design an attractive and captivating event for you and your employees. Our large repertoire of team tasks is made for a meticulously customized event tailored to your corporate themes and wishes incorporating all participants. Based on our experience of habit changes made easier out in the open, we also recommend a combination of Indoors and Outdoors activities. We will challenge your team! Who will take the best group picture, build the highest tower, outrun all in the biathlon or produce the most meaningful commercial spot with your values? Our Challenge-Concept is based on teamwork, trust and accomplishing tasks more and more demanded in the work place.

During the Team Challenge with a variety of tasks the participants can experience the team playfully, sustainably enhancing the sense of unity and apply the valuable lessons learned in the daily work routine.

Mission Possible

Experience team spirit & enjoy adventure!

As a prospective agent you now have to prove in small teams what you have learned. Your skills in the areas of communication, dexterity, bomb disposal, laser-maze-crossing, overcoming a sensor floor, abseiling, following hot leads, combining clues, finding informants or searching for evidence will be put to the test by none other than Ethan Hunt himself. He has prepared a number of espionage exams for you to complete. Only if you manage to earn at least 1,200 points will you pass the exams. Show him that you can master the modern methods of obtaining information, that you can turn exceptional situations into routines, that you can keep calm even during breakneck chases and that you have a steel spirit in a steel body!

The success of your team depends on its cooperation. Without team spirit, a good instinct and the right strategy, you won't get far in this game!

Highland Games

Highland Games

Conquer your very own world and bring honor to your kingdom!

Who is the strongest Scot? Find out during the highland games – strategy, team spirit and a lot of fun guaranteed! The Highland Games date back to the times of the Celtic kings in Scotland. They were held in order to find the strongest and quickest men of Scotland. A lot of games from everyday life and work were also integrated into the highland games. Single teams compete against one another in different games before the winner is announced.

z.B.: **Sheaf Toss** (a “hay” sack is thrown as far as possible), **Tossing the Wellie** (throwing contest with rubber boots. Historically speaking, housewives threw the dirty boots that their husbands came home in out of the house.), **Tug-o-war** (teams pull on opposite ends of a rope wearing kilts), **The damned barrel** (with a lot of skill, quickness and a portion of courage, a 300 l barrel has to be filled with water. The problem: there are 30 holes in the barrel.), **nailing contest**, **beer mug lifting**, **barrel rolling**, **wheelbarrow race**

Tour of Topics

Embark on this ultimate team event!

Equipped with map and compass, or with GPS devices as well as specially deigned road books the participants begin their search for coordinates. En route, they discover unusual places and accomplish extraordinary team tasks such as Floating Harbour, a Trivia Quiz or the Pipeline. The Tour of Topics can be implemented at every choice venue and accordingly adjusted in team challenges and tasks to customize your event. An exciting tour filled with thrill, adventure, fun and healthy exercise awaits. An equipment of video- and digital cameras is just as possible as the variation in the team's mobility – always enhancing the thrill of the event.

We associate your themes and products with the positive experiences. Successful communication and active participation strengthen the sense of unity and kindle the team spirit.

Insect Hotel-Construction

Doing something for the environment together!

Would you like to create something in a team and at the same time do a good deed? Then we have the perfect team event for you: Build an insect hotel! Incidentally, this can also serve as a beautiful and sensible solution for a charity event! In this team-promoting challenge you will become both an environmentalist and a master builder. Open your own insect hotel and promote the preservation of insect diversity.

With this CSR event you provide a valuable alternative to the increasingly scarce natural habitats of insects, which contribute significantly to the natural balance of our environment.

Festival of Senses

Festival of Senses

A bag full of heightened senses, great experiences and fresh impulses.

Thanks to our senses, we are able to perceive the beauty of a deep red poppy field. Thanks to the eye which, like a professional camera captures the entire color palette, focusses on the foreground and records infinite space. We often forget how much our body achieves in everyday life, and only when an organ stops working, we notice it. But before this occurs, stressful tinnitus sets in or numbness in the fingertips caused by diseases of the spine is induced, we would like to sensitize your participants. In our Festival of Senses we will focus your perception on the different senses in our various stations using our special techniques. We encourage you to consciously perceive sensations, gain knowledge, communicate with each other and process the experiences without time pressure subsequently integrating all into the daily routine.

Join your team on the journey and focus on seeing, hearing, feeling, smelling, tasting, and deliberate movement.

Urban Golf

Follow our 5 star course through urban areas and nature.

Far from elitist etiquette our Urban Golf is played in city parks, across meadows, along river banks, within the city, in surroundings of the hotel or other urban areas. Test your teams' marksmanship aiming around the trees, over park benches and through various obstacles. After a short instruction by our guides and equipped with professional equipment, it is great fun to pass the urban golf course, which is individually adapted to your wishes and the venue possibilities. The goal for any player is, of course, to score with as few strikes as possible and to score many points for the team.

Come Summer or wintry scene – Mother Nature offers the ideal Urban Golf settings throughout the year making it possible for us to offer you this adventure – wherever and whenever!

Chain Reaction

Set standards with your team!

The goal of all participants is to create a functional motion and the most efficient interaction of the individual team reactions designed with varying materials. The duration of movement without interruption and whether the „Big Bang“ is triggered in the end depends on the implementation by the teams. We are able to smoothly integrate your topics, workshop contents and even products into the event. One impulse will turn the event into an unforgettable experience for your employees! Captivated by the thrilling question whether all the engineered constructions and effects will be triggered by the single impulse all participants are enticed to reveal unparalleled capabilities and ingenuity.

Creativity, communication and team work are promoted and lead to success.
