## Start the year with *teamgeist*. Put your topics in the spotlight

Combine your annual kick-off event or workshop with special activities and thematic highlights from our portfolio. We will be happy to support you in selecting suitable modules or create an individual concept entirely tailored to your wishes.

### Global *tabtour*®

With the "Global *tabtour*®" variant, you can also compete simultaneously, with teams in different cities, in our digital rally. In combination with individual themes or company-specific content, the *tabtour*® is ideal for the start of the year. A well-balanced mix of strategy and teamwork.

### Creative Events

Let your creativity run free and create unique team paintings traditionally with brush & paint or innovatively tape together impressive artworks for your company spaces. We will equip your desired location with the appropriate equipment. Optionally available as ice sculpture building.

### happini Festival

We inspire employees and management for a healthy lifestyle and set new impulses together! Add movement, vitality and relaxation to your conference. Whether as an active conference break or as a health day with individual content. We show you how to make health fun without lecturing.

### Tablet Challenge

The Tablet Challenge focuses on cooperation. Guided by our digital app, the teams navigate successively to challenging stations. In the process, topics such as communication, skill or strategy are put into the spotlight and valuable points are diligently earned for the team score.

## On-site kick-off meeting: Creativity & Communication

At a kick-off meeting with the whole team on site, the focus at *teamgeist* lies on creativity, communication and interaction in very extraordinary settings. Put your event or a very special topic in the spotlight and experience new perspectives together thanks to unique methods and playful approaches.

### Smart Future City

At our Smart Future City team event, your employees become experts who plan and design a smart city of the future.

If something new is to be created, good ideas and space for creative processes are needed. Dynamics, flexibility and adaptability are essential.

### Short Film Festival

Work on your topics with creative ease during an iPad short film festival. Let's roll the film and take action. Your topics and creative ideas are the focal point here.

With the help of various props and iPads as cameras, the teams create exciting short films or creative spots.

### Impulse Reaction

Get the ball rolling. In a suspenseful atmosphere, the participants create highly complex chain reactions using different materials that melt into an impulse chain.

Will you succeed in creating an uninterrupted reaction with a big bang?

### Team Web

More network is not possible! With ropes and useful knots, you can create a sustainable network together. Metaphors like "a sustainable network" of cooperation can be vividly communicated through this concept. What sounds simple requires a lot of communication and coordination.
