Whether as a pure team competition, as part of a larger team challenge or as a module for your big Christmas event. Curling and archery always guarantee a good atmosphere and highly motivated participants. Our classics during the Christmas season.

### (Night) Archery

In a wintry atmosphere or even by torchlight, archery is a very special experience. We offer archery at various locations in Berlin and Potsdam or at the location of your choice upon request. Equipped with bow and arrow, participants compete in an exciting team competition. Always keep your target in focus and learn the technique of archery.

### Curling

Regardless of the temperature and weather, our mobile plastic rinks offer you the same fun as on real ice. The game is played with original curling sticks in teams and, depending on your wishes, in different competition variations. Whether on our permanently installed rinks in Berlin and Potsdam or mobile at your desired location, curling is ideal for any Christmas party.

### Tabchallenge

Team members can use their individual talents and skills in a variety of different modules to collect many points together as a team and achieve the best possible result. The individual teams are guided by our digital and award-winning *teamgeist* app, which provides interesting tasks and puzzles. During the Christmas season, also with Christmas elements or with the support of predefined sketches.

### Impulse Reaction

With the *teamgeist* impulse reaction, you can create a terrific chain reaction with all your colleagues. Reactions creatively designed by the participants run one after the other as if magically and set off a chain reaction with surprise effects. Thanks to a lot of creative freedom, this is the ideal team event to rekindle cooperation and enthusiasm in the team.
